"I am going to apply to the Supreme Court at once," he said, "for a mandamus to compel the Board of Police Commissioners to print my name on the Republican ticket. Simpson is not in it. He has no show anyhow, and the Supreme Court cannot do anything else than give me the ballot."

Birangely enough, Mr. Simpson when seen repeated the statement made by Mr. Campbell. The only difference was that the names were reversed.

places small reilance. Mr. Divver could not be found at his home in Madison street this morning.

However Mayor Gilroy may like to retain Divver on the Police Court bench, one thing is certain, that the most determined efforts will be made to have the Justice impeached. He is also down to be called, however unwilling as a witness before the Lexow Committee, and explain about the green goods and other business transactions of which he has been accused.

The cuestion is whether, in view of the fight that is now on. Tammany can afford to wait until actually compelled to take action. Several individuals, who are high in the councils of Tammany Hall, want the Mayor to into no Divver's resignation at once, or he is compelled to do so.

The Divver Club will hold a meeting to-morrow night, wi.en the ex-leader's letter of resignation from the leadership will be read. Alderman Nicholas Brown will be named as his successor.

Friends of the Alderman are anxious that he should decline the alleged honor in view of the fight that is now on. In the event of Tammany's defeat, which how seems certain, it is said that Brown would at once follow Divver into political retirement, save such as Aldermanic paironage might give him.

"Jimmy' Oliver, who intends running against Divver's candidate for Assembly, when seen at his headquarters to-day, said that he was in the race to stay, and that he was in the race to stay, and that he would surely win. Reading Reorganisation.

(By Associated Press.)

PHILADELPHIA, Oct. 22.—Special Master
Crawford filed in the United States Circuit Court,
at moon to-day, his report on the petition of the
Reading Railroad receivers for permission to pay
the 11-2 per cent. commission for underwriting
the Olcott-Earls reorganisation plan. The Master states that he is of the opinion that the
prayer of the petition should be granted.

It is understood that Receiver Erb will make public only the statement of general assets and liabilities of Coffin & Stanton. The itemised statement of creditors will be filed with the Clerk of the Court, and no one will be allowed access thereto unless an interested party, and then only on an order from the Court. This was decided upon by the receiver upon request of creditors, some of whom were fearful that their financial standing might be impaired with the public.

Many local traders express a steady improvement in the market.

Wheat was active. Early sales were at 561-4c. for December at New York and 52 5-8c, at Chicago, a decline of about 1-4c. Foreign and local buying was sufficient to hold the market steady during early tradings. Corn was easier. May opened about 1-4c. lower at 53 1-2c, here and 49 3-4c, in Chicago. Oats were quiet and cassy, but without material change, and the same was true of provisions.

dian Territory, as well as those living outside the Territory, but doing business; with Territory firms, are greatly worked up over the condition of affairs which has made it necessary for Pacine Express Company to refuse money shipments.

"The situation in the Indian Territory to-day," said Supt. O. W. Case, of the Pacific Express Company, "is worse than it ever was. There is absolutely no protection for life or property, except as we furnish it ourselves. This continual carrying of such an armed force makes the business too expensive to be profitable. We have lost more by the expense than we ever did by the actual robberies.

"Now, by this Saturday robber we lost just \$41. This consisted of return C. O. D.'s, which we are still handling, and our own and the railroad remittances. But you can see that to protect even a small amount what it would cost when such a gang as that attacked the train. The other companies are still carrying money, but I am informed by Mr. Simpson, of the Wells-Fargo, that he has asked the general superintendent to issue an order similar to ours.

"There is but one way to stop this lawlessness. That is to make a State out of the Territory. Of course, if the Federal Government would send a few regiments of soldiers down there, instead of keeping them in the barracks and in these Eastern military stations, it might do some good. A war of extermipation, such as Gov. Crittenden made Igainst the James gang in Missouri, is needed, however, and this can only properly be done by admitting the Territory to State-hood."
